ENEOS Xplora Inc.

## **ENEOS Xplora Joins Sustainable Resources Engineering Education Consortium**

ENEOS Xplora Inc. (President and CEO: Toshiya Nakahara) is pleased to announce that it has recently become a partner of the Sustainable Resources Engineering Education Consortium ("SREC"), which was established in April.

2022 to strengthen and enhance the educational system for human resources development in the field of resource engineering.

SREC is a consortium led by the Graduate School of Engineering, Hokkaido University and the Graduate School of Engineering, Kyushu University, in collaboration with supporting companies and institutions. The consortium aims to create educational system models, establish environments for educational system construction, and collect, disseminate, and promote information related to educational systems.

Through the partnership with SREC, ENEOS Xplora aims to contribute to the strengthening and enhancement of the educational system for nurturing human resources in resource engineering, as well as seeking to deepen collaboration with both Hokkaido University and Kyushu University. This partnership also represents an opportunity to explore new possibilities such as the advancement of joint research related to subsurface technology and gain valuable insights into digital technology initiatives.
