

May 29, 2025

ENEOS Xplora Inc.

**Participation in “Energy Asia 2025”**  
**One of the Southeast Asia’s Largest Energy Expositions**

ENEOS Xplora (President and CEO: Yasuhiko Oshida) is pleased to announce that we will be participating in one of the Southeast Asia’s largest energy exhibitions, “Energy Asia 2025.” The event will take place from June 16 to June 18 in Kuala Lumpur, Malaysia.

At our booth, we will exhibit a natural gas development and production project which we serve as an operator and high CO2 gas fields development project using CCS technology, through the latest 3D displays and panels, as well as the “Petra Nova CCUS Project” in the United States, which is our flagship project in the Environmental solutions business.

Additionally, we will jointly showcase ENEOS Corporation’s hydrogen business and ocean drilling services provided by ENEOS Drilling Limited, our wholly owned subsidiary established last year.

Join us to explore the ENEOS Group’s future efforts expanding from Japan to Malaysia and all over the world. We look forward to welcoming you to our booth.
