

October 20, 2025
ENEOS Xplora Inc.

Participation in “ADIPEC 2025”
one of the world’s largest energy exhibitions, held in Abu Dhabi

ENEOS Xplora is pleased to announce that we will be exhibiting at the Abu Dhabi International Petroleum Exhibition & Conference (ADIPEC), which will take place from November 3 to 6, 2025, in Abu Dhabi, United Arab Emirates (UAE).

ADIPEC is one of the world’s largest international conferences and exhibitions for the energy industry, held in Abu Dhabi every year. It brings over 200,000 attendees from around the globe, including national oil companies and major international oil corporations. We will be exhibiting jointly with Japan Organization for Metals and Energy Security (JOGMEC), Cosmo Energy Exploration & Production Co., Ltd., and Abu Dhabi Oil Co., Ltd.

At our booth, we will showcase our oil and gas projects across eight countries as well as our pioneering efforts in the CCS*1/CCUS*2 projects. In addition, to commemorate the 50th anniversary of production at the El Bunduq Oil Field*3, one of our participating projects in the Middle East, we will present a panel display highlighting their initiatives and achievements. Presentations about the activities in the Middle East region by co-exhibitors are also planned at the booth.

Visit our booth and discover how the ENEOS Xplora Group is contributing to the stable energy supply in the Middle East and around the world. Look forward to welcoming you soon.

*1 CCS: Carbon dioxide Capture and Storage. Technology that captures CO₂ and stores it underground permanently.

*2 CCUS: Carbon dioxide Capture, Utilization and Storage, in addition to capturing and storing CO₂, CCUS technology is used to generate new products and energy by utilizing CO₂.

*3 El Bunduq Oil Field: Operated by Bunduq Company Limited, a wholly owned subsidiary of United Petroleum Development Co., Ltd, which holds 100% of the field’s interests. ENEOS Xplora holds a 50% stake in UPD.
